Subject: Summary of all VOC data obtained via Summa canisters for the WLLS.
[West Lake Landfill Data Summary Report - Volatile Organic Compounds.pdf](#)

As stated on our call this am. Here is the VOC report which includes all comments made and corrected items in this report (a big Thank You to Stephanie for her diligence).

The attached report provides a summary of all VOC data obtained via Summa canisters. Summa canisters were collected weekly during the baseline period from May 8 – December 17, 2014. (VOC sampling via Radiello passive samplers began in December 2014 and that data is summarized in a separate report).

Please share with those I missed.
